

TransferJet Consortium will exhibit at CES 2012 -

LAS VEGAS, January 6th, 2012 The TransferJet Consortium will be exhibiting at CES 2012 (January 10-13, 2012) held at the Las Vegas Convention Center, USA. At this event, the TransferJet Consortium members will be demonstrating products, prototypes, components, semiconductors, as well as present and future use cases associated with the *TransferJet* ecosystem. Visitors will be able to experience the world of “touch transfer” and the possibilities offered by this unique wireless technology.

Period: January 10 - 13, 2012
Location: Las Vegas Convention Center, Nevada, USA
Booth: Central Hall / Booth 15112
Website: <http://bit.ly/uUY4i6>

Main Exhibits;

Consortium Overview

The consortium will present its overall activities including international standardization efforts and technical development roadmaps.

Product Demonstrations

The consortium will demonstrate *TransferJet* wireless technology through its members' products and prototypes which employ the technology. This includes demonstrations of currently available commercial products as well as future service concepts, such as content downloading from kiosk stores equipped with cyber shelves handling both printed and electronic versions of content for perusal and purchase.

Participating companies: Seiko Epson Corporation, Sony Corporation, Sony Ericsson Mobile Communications and Toshiba Corporation

System and Component Technology

1. Latest TransferJet LSIs and module solutions
2. Memory cards incorporating *TransferJet* functionality
3. A selection of miniature, high-performance couplers

Participating companies: ADVANEX INC., Hitachi Ltd. (Hitachi Cable, Ltd.) , Murata Manufacturing Co., Ltd., NISSEI ELECTRIC CO., LTD., SMK Corporation, Sony

Corporation, TAIYO YUDEN CO., LTD., Tyco Electronics Japan, G.K., TOKO, INC., TOTOKU Electric Co., Ltd. and Toshiba Corporation

About the TransferJet Consortium

The TransferJet Consortium was established in 2008 by a group of international companies with the common goal of developing the technology, products and services based on *TransferJet* wireless technology. Recently registered as a Japanese incorporated association in September 2011, the consortium develops specifications, compliance testing processes and tools, and conducts marketing activities to promote the *TransferJet* concept, technology, products, applications and services. Additional information about the consortium, its activities and membership application is available at: <http://www.transferjet.org/>.
